

# WILD ANIMALS

My mom said my Dad will take me on an adventure in Costa Rica next summer when I visit him. Maybe I will see a real live sloth!

Wow! Last summer, when I was visiting my Grandma and Grandpa, I saw a bald eagle soaring high above the trees near their house. I was surprised how long the eagles wings are.

Kevin, was it scary looking?

No, it was just so big!

Mom and Dad told me in Namibia, where I was born, there are giraffes and lions in the wild.

My dad told me in Asia there are tigers living in the wild.

Yes, there are many different types of wild animals all over the world. What are some wild animals that live in Finland?
